ONCOLOGY

Gritstone Oncology to Present at the 38th Annual J.P. Morgan Healthcare Conference

January 8, 2020

EMERYVILLE, Calif., Jan. 08, 2020 (GLOBE NEWSWIRE) -- [Gritstone Oncology](#) (Nasdaq: GRTS), a clinical-stage biotechnology company developing the next generation of cancer immunotherapies to fight multiple cancer types, today announced that Andrew Allen, M.D., Ph.D., co-founder, president and chief executive officer, will present a company overview on Thursday, January 16, 2020 at 8:00 a.m. PT during the 38th Annual J.P. Morgan Healthcare Conference in San Francisco. The company will hold a question and answer session immediately following the presentation.

A live audio webcast of the presentation and Q&A session will be available within the Investors & Media section of the Gritstone Oncology website at <https://ir.gritstoneoncology.com/investors/events>. An archived replay will be accessible for 30 days following the event.

About Gritstone Oncology

Gritstone Oncology (Nasdaq: GRTS), a clinical-stage biotechnology company, is developing the next generation of cancer immunotherapies to fight multiple cancer types. Gritstone develops its products by leveraging two key pillars—first, a proprietary machine learning-based platform, Gritstone EDGE™, which is designed to predict, from a routine tumor biopsy, the tumor-specific neoantigens (TSNA) that are presented on a patient's tumor cells; and second, the ability to develop and manufacture potent immunotherapies utilizing patients' TSNA to potentially drive the patient's immune system to specifically attack and destroy tumors. The company's personalized neoantigen-based immunotherapy, GRANITE, and its "off the shelf" shared neoantigen-based immunotherapy, SLATE, are being evaluated in Phase 1 clinical studies. Novel tumor-specific antigens can also provide targets for bispecific antibody (BiSAb) therapeutics for solid tumors, and Gritstone's BiSAb program is currently in lead optimization.
